

# OPTIMUS D GBR SYSTEM

The most optimized GBR system for clinicians

## Optimus D GBR system is the most optimized for clinicians

Optimus D GBR system provides clinicians with fast and effective tools for GBR cases. It can be used for bone block and membrane fixation with the purpose of offering a true alternative.

- One blade fits for all screws and Bone-Tac
- Innovative screw design allows for low insertion and high pull out torque
- Optimus Bone-Tac allows clinicians to fix a membrane on maxillar or mandible area.
- Optimus GBR mesh is highly flexible but strong enough to maintain the formation of new bone.

### OPTIMUS BLOCK & INSTRUMENTS

Part	Order No.	Description
	GIN-006	Sterilization & Logistic Block
	IOC-010	Driver Handle
	FDS-01	Driver Shaft for Screw
	GDS-01	Driver Shaft for Bone Tac
